Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 09 February 2005.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-13 is/are pending in the application.
- 4a) Of the above claim(s) 6-12 is/are withdrawn from consideration.
- 5) ☐ Claim(s) _____ is/are allowed.
- 6) ☒ Claim(s) 1-5 and 13 is/are rejected.
- 7) ☐ Claim(s) _____ is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

DETAILED ACTION

Election/Restrictions

1. Applicant's election without traverse of figures 2A, 2B, and 2C in the reply filed on 02/09/05 is acknowledged. Claims 6-12 are withdrawn from consideration at this time.

Drawings

2. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the false aperture of claim 13 must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner,

the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Knapp (US 5,204,995).

In regard to claim 1, Knapp teaches a garment comprising, in combination: a) an adjointed pair of pant legs (figure 1); b) each of said pant legs having an inner surface (16) and an outer surface (14) and including an outer perimeter (see edges 52, 54) and an inner perimeter (see seams 38); and
c) at least one of said pant legs having an elongated aperture (see button holes, figure 1, identifier 56).

In regard to claim 2, Knapp teaches a garment as defined in Claim 1 additionally
a) a least one ornament (figures 7 and 8, identifier 60); b) said ornament comprising an ornament face (64) and a back button (62), said ornament face (64) being threadedly joined in spaced relationship to said back button (figures 7 and 8, identifier 66); and
c) said at least one ornament (64) being received at an elongated aperture (56) so that said ornament face (64) lies adjacent the outer surface of a pant leg and said back button lies adjacent the inner surface of said pant leg (see figures 1, 7 and 8).

In regard to claim 3 Knapp teaches a garment as defined in Claim 2 further characterized in that:

- a) at least one of said pant legs has a plurality of apertures (figure 1, identifiers 56); and
- b) said plurality of apertures (56) is arranged vertically adjacent the outer perimeter of said leg (see figure 1, identifier 56).

In regard to claim 4, Knapp teaches a plurality of ornaments (60).

In regard to claim 13, Knapp teaches a garment as defined in Claim 1 further including at least one faux aperture (side seam 32) adjacent the inner perimeter of said at least one pant leg (figure 1).

Claim Rejections - 35 USC § 103

5. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

6. Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Knapp.

Knapp teaches a garment as described above in claims 1-3. Further, Knapp teaches the ornaments having rivets. However, Knapp fails to teach the ornaments comprising rivets made out of brass material.

It would have been obvious to have provided the ornaments with rivets of Knapp to have been made out of brass, metal or plastic, because as long as the rivets provide stability and securement to the ornaments, the type of material can be chosen from any well known materials including brass, based upon end use and aesthetics.

Conclusion

7. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure and can be found cited in PTO-892 form submitted herewith.
